

# WORKSHOP SERVICE

Sund Birsta AB can offer existing customers workshop service of their products. By this we mean that we are today capable of repairing, renovating and servicing machines and heads within our own workshops.

## Our advantages are:

- Trained personnel.
- Large stock with original spares.
- Special tools for specific procedures.
- Testing equipment.
- Full access to technical documentation.

New and existing customers are welcome to contact us for a quotation or an audit of their equipment.
