

Product sheet

LMD

The LMD enables marking on the strap as an integrated functionality of your strapping machine, ensuring reliable traceability of your product.

Flexible and dynamic marking

Mark alphanumeric characters, 2D codes, logos and other customer-specific information.

Easy retrofit

Designed for seamless integration into existing Sund Birsta strapping machines utilizing either Siemens or Allen-Bradley control systems.

Minimized impact on cycle time

Depending on the application, marking can be carried out during the gap time between bundles, resulting in little or no impact on cycle time.

Class 1 laser product

The system is classified as a Class 1 laser product in accordance with IEC/SS-EN 60825-1 and applicable requirements of 21 CFR 1040.10 and 1040.11 during normal operation. Therefore, under normal operating conditions, no laser-specific personal protective equipment (PPE) is required for operators.

Suitable for treated steel straps

Can handle all normal surface treatment of steel straps. Suitable for annealed and coated steel straps.
